PROFESSIONAL SUMMARY

Full Stack Developer · MERN Stack Specialist. Hands-on experience shipping production-grade SaaS applications, Google OAuth 2.0 authentication, RESTful APIs, automated PDF generation pipelines, and responsive UIs. Strong end-to-end ownership across Agile delivery, Git collaboration, and CI/CD workflows.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), Python, HTML5, CSS3, SQL

Frontend: React.js, Bootstrap, Tailwind CSS, Framer Motion, Vite, Responsive Design

Backend: Node.js, Express.js, RESTful APIs, JWT, OAuth 2.0, Microservices

Databases & Tools: MongoDB, Mongoose (ODM), SQLite, Git, GitHub, Docker, Postman, Socket.io, Axios

Cloud & Services: Vercel, Render, Cloudinary, Clerk Auth, Gemini AI, CloudConvert, pdf-lib, CI/CD, SMTP, n8n

PROFESSIONAL EXPERIENCE

Full Stack Developer Intern — Xyzon Innovations

Remote | January 2026 – May 2026

- Shipped 20+ production pull requests and 38,000+ lines of code on a live MERN SaaS platform, delivering features across authentication, payments, AI tools, and product modules.
- Architected a Google OAuth 2.0 authentication system with SMTP-driven automated email workflows covering 10 distinct mail types (welcome, OTP, offer letter, certificates) with fallback error handling.
- Built a Certificate Generator SaaS module (html2canvas + pdf-lib) with ResizeObserver-driven viewport-responsive scaling, and an automated Offer Letter PDF pipeline with custom font embedding.
- Launched a 6-program courses product line (MERN Stack, Agentic AI, Cybersecurity, Java SE17, Vibe Coding, Japanese) with checkout flows and payment integration; led platform-wide security hardening across auth and payment controllers.

MERN Stack Developer Intern — SendNow

Remote | July 2025 – September 2025

- Architected a full-stack document conversion pipeline using Node.js, a Dockerized LibreOffice instance, and the CloudConvert API to convert DOCX and PPTX files to PDF at scale.
- Built a browser-based PPTX viewer in React for in-app document rendering, paired with a thumbnail preview system enriched with Open Graph meta tags for social-share engagement.
- Resolved critical UI and REST API bugs in the analytics dashboard, re-engineering the React frontend for full responsiveness across mobile, tablet, and desktop; maintained zero-downtime deployments via Agile sprint workflows.

PROJECTS

Nexus — B2B SaaS Project Management Platform

React.js, Node.js, Express, MongoDB

nexus-governance.vercel.app

- Built a full-stack MERN governance platform competing with Jira and ClickUp, featuring team workspaces, role-based access control (RBAC), and real-time project tracking.
- Architected end-to-end project tracking with MongoDB schemas for nested task hierarchies, role-based API middleware, and a responsive dashboard with real-time status updates.

LabLink — Anonymous Collaboration Platform

React.js, Node.js, Express, MongoDB, Socket.io

lablink.live

- Engineered a live full-stack anonymous collaboration platform enabling instant private sharing of ideas and files across ephemeral rooms, with strict auto-deletion logic ensuring zero data persistence.
- Implemented Socket.io-powered real-time room sync with server-side auto-expiry timers ensuring complete session cleanup on disconnect.

ElitePath — Full-Stack Job Portal

React.js, Node.js, MongoDB, Clerk, Socket.io, Gemini AI

mern-job-portal-plum.vercel.app

- Developed an end-to-end recruitment platform with role-based auth, live job listings via the Adzuna API, Gemini AI-powered resume analysis, Cloudinary resume storage, and Socket.io real-time notifications, integrating 3 third-party APIs end-to-end.

ACHIEVEMENTS

- Campus Placement — Space Zee Technologies (2026):** Secured a Software Developer offer through competitive campus recruitment with a CTC of 6–7 LPA.
- Intern of the Month × 3 — Xyzon Innovations:** Awarded three consecutive months for shipping critical production features with high code quality.

EDUCATION

B.Tech in Information Technology — Mohammed Sathak Engineering College (Autonomous) | 2022 – 2026 | CGPA: 8.6 / 10

HSC, Computer Science — Kshatriya Nadar Matriculation Hr Sec School | 2021 – 2022 | 81%
